Emily did an amazing job at my daughters wedding. She was very professional. I would most definitely recommend her. All of the pictures in the wedding album more absolutely gorgeous!! I can't believe how fast she had them back to us. Great job Emily!!

Hi Emily! I just wanted to reach out and tell you what a wonderful job you did on Kameron and Aimee's wedding! You were so creative and professional and they are lucky to have selected you to capture their special day! You should be very proud and I hope their beautiful photos will inspire other couples to hire you! What a talented young woman you have grown into. Love Molly Lajoie

CAN I BUY RAW FOOTAGE?

I do not share my raw footage because it is an element of my work and not the entirety of it. RAW footage is gray, has poor audio quality, and has lots of movement. I understand the want to have the raw footage because most people think the footage will look like high-quality iPhone videos. The system of capturing your wedding day is composed of many elements during and in post. I included two examples below to help you see the difference between RAW and Editing footage. If you received the raw footage you would not be satisfied with it. It's basically the canvas of a painting before the paint is added.

RAW footage can also mean that you are looking to purchase the entirety of a moment! Like the entire ceremony, private vows, dances or speeches. I do offer those, fully edited, audio mixed, edited, color graded, and in 4K unlimited online downloads!

MEMORABLE MOMENTS

Each wedding has memorable moments with their loved ones. Most couples love to capture the entire moment on film and have it as a keep sake forever! I will capture all of these moments! But if you would like to have a septate film(s) of one of these special moments you can! Many people purchase the entirety of their speeches and ceremony.

Check them out!
